HR Portal — Leave Request Requirements

1. Introduction

Leave policies are defined by the HR department and may change yearly.

Payroll integration is described in a separate document.

2. Functional requirements

2.1 The system shall allow an …

The system shall allow an employee to submit an annual leave request with start and end dates.

Then The request shows the number of working days requested.

2.2 The system shall prevent a …

The system shall prevent a leave request that exceeds the remaining balance.

Then Requesting 6 days with a balance of 5 shows an error.

2.3 The system shall notify the …

The system shall notify the direct manager when a request is submitted.

Then The manager receives an in-app notification and an email.

2.4 The manager must approve or …

The manager must approve or reject a request within 3 working days.

Then After 3 working days the request escalates to HR.

2.5 The system shall exclude public …

The system shall exclude public holidays from the calculated leave days.

Then A request spanning a public holiday counts one day fewer.
